## New Journal by Slovak Education Research Association

### Online Journal launched by Solvak Educational Research Association

New Journal by EERA member association Slovak Educational Society of Slovak Academy of Sciences

[PEDAGOGIKA.SK](#), a new scientific online journal, has set out on a journey to educational community. Its intention is to publish theoretical and empirical studies, news and book reviews which, we hope, will stimulate the scientific thinking in education. The journal will bring papers that reflect diverse educational approaches and conceptions, if they are meaningful and viable.

The Editorial Board welcomes manuscripts.
